Honda CT90 Motorcycle 1968

This is an exceptional "barn find"! This is a true gem!

Original owner bought brand-new in 1968, rode it occasionally and it has been in storage since 1971. It has 2,251 original miles on it. Everything on this bike is original... it even has the original factory-supplied tool kit!

This motorcycle is as complete as brand-new.

This bike runs great and is in perfect condition. Rebuilt carburetor, brand-new battery, brand-new rear tire and tube. Brand-new mirrors. The gas tank has been flushed out and thoroughly cleaned.

The seat is all original and shows no cracks, verifying that this motorcycle has been in storage and well-cared for. This is quite possibly the most original Honda 90 you will ever find!

Text or call Lauri, please, phone calls only, 9am to 10pm
