Address:

Euclid

Price:

3000.00 \$

Bought a new car back in 2015 and decided to hold onto this one for our Grandson who went into the Army. He has decided that he will not need a car. Proud of him for choosing to protect our country.

This is a great car for the high school students first car or someone going off to college.

It is a Mechanics special because it will need a new engine and it is above our pay grade.

We have replaced the tires, repacked front wheel bearings, resurfaced 2 front rotors, rear disc brake reline, new disc pads front and back, rebuilt transmission, R & L front forward lower and rearward control arms and front stabilizers. Just can't do the engine.

It has power windows, locks and mirrors, Keyless entry with two working keys, Cruise control on steering wheel, cd player.

We will pay for the tow to where you want it to go.
